HELLO!

I am Tracey Scott

IT Operations Manager & Business Analyst

Greenville, SC | traceysscott82@gmail.com

1 SKILLS & EXPERTISE

Core competencies across cybersecurity, cloud, and analytics

“I translate business risk into actionable security strategy — architecting frameworks, governance, and monitoring that protect data while enabling growth.”

CORE COMPETENCIES

- IDS/IPS & Firewall Administration
- Endpoint / EDR & MDM Management
- Incident Response & IR Playbooks

Org-wide Security Training via KnowBe4

- IAM / RBAC / Azure AD Controls

5+ YEARS

Building and securing enterprise cloud and hybrid infrastructure across AWS, Azure, and GCP

SECURITY & CLOUD

Security Operations

IDS/IPS, Firewall Admin, Endpoint/EDR, MDM, Incident Response, and org-wide KnowBe4 security awareness training.

Cloud & Infrastructure

AWS, Azure, GCP administration. IAM/RBAC/Azure AD, VMware, Hyper-V, Docker, M365 & SaaS management.

GOVERNANCE, RISK & AUTOMATION

Governance & Risk

GDPR, SOX, ITIL compliance. Risk assessment, vulnerability management, and security policy design.

Analytics & Automation

PowerShell, Python, SQL scripting. Excel, Power BI, Tableau, LLMs, Power Automate & AI Agents.

Predictive Modeling

88% predictive model accuracy. Automated reporting with +10% accuracy gain through data validation.

SECURITY OPERATIONS DASHBOARD

Executive view built at RightPath Insurance to monitor security posture, incidents, and compliance across the enterprise.

99.8% Uptime

ZERO CRITICAL BREACHES

SECURITY FRAMEWORK

DASHBOARD METRICS

	Metric	Value	Status
Uptime	99.8%	Achieved	7
Threats Mitigated	24	Resolved	10
RBAC Coverage	100%	Complete	16

EXPERIENCE

Greenville, SC | IT Operations Manager & Business Analyst

99.8%

Enterprise uptime maintained across hybrid cloud infrastructure

6 MO

Full security framework stood up from zero

88%

Predictive model accuracy delivered to stakeholders

100%

RBAC / least-privilege coverage across hybrid environment

KEY PROJECTS

01

Enterprise Security Framework — Architected endpoint, IDS/IPS, MDM, and access governance for startup in 6 months.

02

CRM Secure Deployment — Complete CRM build with coding, development, maintenance, secure auth, encryption, RBAC.

03

Secure Multi-Cloud Deployment — AWS + Azure infrastructure with IAM, RBAC, encryption, and least-privilege controls.

MORE PROJECTS & ACHIEVEMENTS

04 Executive Dashboards

Power BI dashboards for incidents, compliance, and sales metrics.

05 Incident Response

IR playbooks, remediation workflows, and KnowBe4 training.

06 IT Ticketing System

Built ticketing system for org-wide issue reporting and triage.

07 AI Agents

Power Automate AI Agents for HR, IT, and Sales departments.

Technical Proficiency

Cloud Security 92%, IAM/RBAC 95%, Power BI 93%, Excel 95%.

Goals Surpassed

Zero critical incidents. 3 public clouds secured and administered.

Self-assessed proficiency across the production stack

DATA CLEANING IN SQL

Cleaned Airbnb housing data in SQL. Standardized formats, removed duplicates, and parsed address fields for analysis.

airbnb_cleaning.sql

```sql
SELECT listing_id, name,
  price, neighborhood,
  room_type, availability
FROM airbnb_listings
WHERE price IS NOT NULL
  AND name != ''
ORDER BY price DESC;

-- Remove duplicates
DELETE FROM airbnb_raw
WHERE id NOT IN (
  SELECT MIN(id)
  FROM airbnb_raw
  GROUP BY listing_id
);
```

DATA EXPLORATION IN SQL

Explored Covid-19 dataset using SQL. Analyzed infection rates, mortality trends, and vaccination data across regions.

TABLEAU DASHBOARDS

Interactive Tableau dashboards for Airbnb market analysis including pricing trends, location insights, and revenue visualization.

THANKS!
